SENIOR CONSULTANT OBSTETRICIAN &
GYNAECOLOGY LAPAROSCOPIC SURGEON
MMC 33190

Nur Afqah bt Mohd Sharil
NRIC 891031-01-5224

The above patient was offered gynaecological consultation and treatment at the clinic premise on 16 February 2021. She has subfertility issues, which has afflicted her emotionally and psychologically. Furthermore, the physical separation from her husband who resides in America has made her clinical matters worse. Her request for travel to be united with her spouse in United States is strongly supported on medical grounds.

Regards

Dr.Kartik
